CRCR Test Eclipse Software Printing in ALL CAPS

How to set your user settings to print in all caps.

1. Open user settings, select document, advanced, and check "All caps" box.
2. When you are getting ready to print test to pdf after you are done, go to print, select your pdf printer, click on the user settings tab and again follow Step 1 to make sure "All caps" box is selected.
3. Print your test to pdf and save the file name as your testing ID number and save to your thumb drive.
4. Open pdf on thumb drive to make sure it looks right.
5. Begin deleting procedures.
